

1        What budget are we talking about?

Your answer:

3.        Do you have any preferences amongst platforms, Intel or AMD? A preferred manufacturer/vendor such as Gigabyte, Asus, MSI/Amazon, PC Garage etc.?

Your answer:

4.        Do you have any preferences amongst graphic cards manufacturers, nVidia or AMD? A preferred brand such as EVGA, MSI, Asus, Sapphire, XFX etc.?

Your answer:

5.        Does your setup require purchasing a monitor/ set of peripherals? If so, what will they be used for? (Gaming, photo/video editing etc.)

Your answer:

6.        What will your system be used for? If you need it for work and your job requires any special programs for photo/video editing, 3D rendering or anything else, please tell us what the programs are called.

In doing so we can shift our focus for the build strictly towards productivity if necessary.

Your answer:

8. Would you like your system to be quiet, flashy, minimalist or any other specific characteristic?

Your answer:

9. Would you like the PC to follow a certain theme or color scheme? Where will it be placed (on the desk, on the floor, etc.)?

Your answer:

10. Do you own any components that you would like to use/reuse in your new system? If so, tell us about what they are, their respective model, type etc.

Your answer:

11. If you also require peripherals, as mentioned on question 5, we are happy to provide recommendations whether they are for mice, keyboards, mousemats, speakers, headsets or even separate mics or desk accessories!

Your answer:

12. Other mentions.

Your answer:
